

PROTECTION OF THE PUBLIC POLICY

Stone Management Group recognises its responsibility to the wider community and the role it has to play in protecting the public.

Implementation

To support this all of our licensed officers receive awareness training in the Operation Fairway initiative which is designed to encourage members of the community to work in partnership with the police to deter and detect terrorist activity and crime.

All of our officers are trained and empowered to recognise and report suspicious activity and behaviour to our 24 hour control centre and to the police.

There is also an expectation that if in the course of their day to day duties our officers see evidence of criminal activity or anti-social behaviour they will either report it directly to the local police or do so via our 24 hour control centre. In the event that they do identify such incidents the officers are instructed they must not put themselves at risk of harm or injury. The officers have also received a similar instruction if they identify vulnerable people that may require protection to ensure their safety.

The management team have received awareness training and encourage staff to be vigilant at all times for their safety and that of the public. Stone Management Group are aware of the threat of a terrorist attack throughout its business activities and has taken steps to identify risks to assist in preventing, handling and recovering from such an incident.
